

stonevue™

strength style durability unrivalled

Stonevue™ has created a range of pavers unrivalled in strength and durability for large contemporary openspace paving including trafficable areas.

Designed for civic, commercial and industrial applications, Stonevue square-edged pavers have a dense surface for maximum strength and slip resistance, minimum absorption, and are coloured throughout.

setting new standards in manufacture

The consistent premium quality of Stonevue pavers and pre-cast concrete products is assured by the Stonevue paving manufacturing facility. Stonevue pavers are manufactured by the “wet press method” pioneered and perfected in Europe. It uses a range of processes to monitor and maintain the highest standards, including:

- > Digitally controlled measurement of colour, moisture, aggregates, sand and cement to ensure consistency.
- > Compaction of up to 6000 kN creating a product with incredible density and strength.
- > Cured in controlled indoor conditions to maximise strength.

the result

All pavers are produced using Australian natural stone, sand and cement. A range of sizes, colours, aggregates and finishes are available. The result is a durable, stylish paver designed to reflect the natural finish of stone. Products include:

- > Pavers,
- > Precast Kerb & Channel,
- > Bullnose Stairs and Edging & risers.

Vacuum Laying and Handling

Stonevue is a distributor of Probst Vacuum Laying and Handling Equipment. This exceptional range of German machinery revolutionises large format pave and kerb laying with proven benefits in costs and OH&S issues.

Project: NAB North South Pedestrian Link

Designers: EDAW Gillespies

Product: Mist green | Ocean green | Leaf green | ecovue
Barossa White | terravue Charcoal Grey | urbanvue

The selection of Stonevue large format pavers ensures robustness and longevity in a mixed use zone which includes light vehicular traffic.

Project: Monterey, Point Cook

Designers: GBLA

Product: Dunnstown Blue | urbanvue

Dunnstown Blue pavers from the urbanvue range were selected for all public recreational spaces on this prestigious estate. Stonevue's all-in-one step tread & riser unit features in the barbecue area.

Project: The Parks

Designers: GBLA

Product: Dromana Gold | terravue

The innovative use of Stonevue's Dromana Gold paver as cladding for a curved semi circle surrounding wall, enhanced a public lawn central to the estate.

Project: Bunnerong Memorial Park

Designers: Tract Consultants

Product: Dromana Gold | terravue
Langwaren Blue | urbanvue

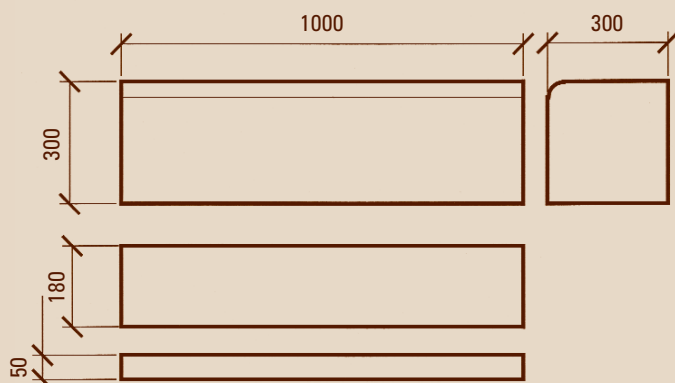

The entrance to the main building of the memorial park was enhanced by contrasting colour, size & patterning of pavers from terravue & urbanvue range.
